Memo on Reconnecting Our Youth
From a Coalition of Voices

Contact person: Linda Harris, Senior Policy Analyst, CLASP

As increased attention is being focused on the graduation rate crisis in this country, this memo draws attention to the 32% of youth who are being left behind. The memo which was sent to President Bush offers a set of recommendations endorsed by over 250 organizations. This site features the memo, the signatories, links to related issue briefs and research and advocacy tools. An effort continues, coordinated by The Campaign for Youth, to advance these recommendations with the Administration, Congress, Governors and federal agencies. 8/01/2005
