* Numbers may have changed slightly because of changes in the system due to delinking of TANF and Medicaid.

**December 2001 was the first month in which TANF cases in New York could exhaust their 60-month time limit. A large proportion of the caseload decrease in December was the result of time-limited cases transferring to New York's Safety Net Assistance.

*** Numbers provided by the state for April 2001 through June 2002 are based on the first of the month, and are lower in comparison to federally reported numbers.

****Numbers provided by the state for April 2001 through December 2001 may differ slightly from official TANF Data Collection figures due to different specifications for including cases.

***** In March 2002, the SSI Caretaker counts in Wisconsin were derived in a different manner and no longer automatically included "grandfathered" cases.
