Dear Senators Reid and McConnell and Representatives Pelosi and Boehner:

We are writing to urge you to take necessary steps to ensure passage this month of important improvements in supports for children and youth in foster care, including new opportunities for permanent families through adoption and relative guardianship and other assistance for older youth transitioning from foster care. As you know, the House unanimously passed the Fostering Connections to Success Act in June and the Senate provisions are moving toward final passage. As more than _____ hundred national, state and local organizations in every state that advocate for children and youth who will benefit from these improvements, we want to ensure that they are passed during this session of Congress.

Both the House bill and Senate provisions have bipartisan support and are fully paid for. Both also include the following important improvements that will help hundreds of thousands of children in foster care by:

- Extending and increasing incentives for adoption, particularly incentives for the adoption of children with special needs and older youth in foster care.
- Allowing states to offer for the first time federal assistance for guardianship payments for children who are in foster care but who have grandparents or other relative guardians who want to care for them permanently outside of foster care.
- Making it easier for immediate relatives to step in to raise children when their parents cannot by requiring notification of relatives when children are removed from their parents and grants to link caregivers with the services their children need.
- Offering important protections and supports for American Indian children in foster care, by allowing tribes, for the first time, the same direct access to federal foster care, adoption assistance and relative guardianship funding that states have.
- Increasing opportunities for success for older youth in foster care as they transition into adult life by allowing them to continue to receive federal foster care payments beyond the age of 18.
- Improve educational opportunities for children and youth in foster care, which will also increase their opportunities for later success.

All of these reforms encompass many of the critical improvements that hundreds of former foster youth, adoptive parents, relative caregivers, and others have been requesting of Congress for several years. We commend you for your leadership and commitment to addressing the needs of our nation's most vulnerable children and youth. The organizations listed below support timely enactment of these important improvements for children and youth in foster care:
