R40182

Summary

On January 28, 2009, the House of Representatives passed the American Recovery and Reinvestment Act of 2009 (H.R. 1)—ARRA. The Senate is currently considering similar economic stimulus legislation in its version of the ARRA (S. 336). The act focuses on promoting economic recovery, assisting those most affected by the recession, improving economic efficiency by “spurring technological advances in science and health,” investing in infrastructure, and stabilizing state and local government budgets. As part of this act, funds would be provided to several existing workforce development programs administered by the U.S. Department of Labor (DOL), including programs authorized by the Workforce Investment Act (WIA).

This report provides a brief overview of the key provisions related to workforce development programs administered by DOL that were included in the act under Title IX of H.R. 1 and Title VIII of S. 336. It also provides estimates of state grants for programs for which these estimates are relevant and for which data needed to produce the estimates are available.

The report will be updated as warranted by legislative action.

----------------------------------	----

On January 28, 2009, the House of Representatives passed the American Recovery and Reinvestment Act of 2009 (H.R. 1)—ARRA. The Senate is currently considering similar economic stimulus legislation in its version of the ARRA (S. 336). The act focuses on promoting economic recovery, assisting those most affected by the recession, improving economic efficiency by “spurring technological advances in science and health,” investing in infrastructure, and stabilizing state and local government budgets. As part of this act, funds would be provided to several existing workforce development programs administered by the U.S. Department of Labor (DOL), including programs authorized by the Workforce Investment Act (WIA).¹

This report provides a brief overview of the key provisions related to workforce development programs administered by DOL that were included in the House and Senate versions of the ARRA. It also provides estimates of state grants for programs for which these estimates are relevant and for which data needed to produce the estimates are available. The estimates are shown in appendix tables that present state-by-state allocations for adult, youth, and dislocated worker programs.²

Funding Overview

Under H.R. 1 as passed by the House of Representatives, an additional \$5.0 billion would be provided for existing workforce development and related programs administered by DOL; S. 336 would provide \$3.93 billion for these same programs. **Table 1** gives an overview of the specific funding provided under the House and Senate versions of the ARRA. The remainder of this report provides a more detailed discussion of the specific funding provisions.

Funding for Workforce Development

The ARRA would provide funding for a number of existing workforce development programs, including the three state formula grant programs that provide funding for youth, adults, and dislocated workers—Title I-B of the WIA. Other programs authorized by the WIA would also receive funding: National Reserve (WIA Title I-D, Section 173), YouthBuild (WIA Title I-D, Section 173A), and Pilot and Demonstration Programs (WIA Title I-D, Section 171). Additional workforce development programs provided for in the ARRA include state unemployment insurance and employment service operations, Title V of the Older Americans Act of 1965, and DOL management. Provisions applicable to each of these programs are discussed below.

¹ Relevant proposed statutory language is included in ARRA Title IX, Subtitle A, of H.R. 1 and Title VIII of S. 336.

² Textual analysis of the ARRA is based on H.R. 1 as passed by the House of Representatives, January 28, 2009, available online at http://frwebgate.access.gpo.gov/cgi-bin/getdoc.cgi?dbname=111_cong_bills&docid=f:h1ih.txt.pdf. Textual analysis of S. 336 is based on the version released by the Senate Committee on Appropriations, January 28, 2009, available online at http://appropriations.senate.gov/News/2009_01_28_Text_of_S336_the_American_Recovery_and_Reinvestment_Plan.pdf?CFID=4217211&CFTOKEN=58458739.

Table I. Summary of Appropriations for Workforce Investment and Related Programs Included in Title IX of H.R. 1 and Title VIII of S. 336

Program	Total Appropriation (\$) H.R. 1	Total Appropriation (\$) S. 336
Title I-B Grants to States for Adult Employment and Training Activities (WIA)	500,000,000	500,000,000
Title I-B Grants to States for Youth Activities (WIA)	1,200,000,000	1,200,000,000
Title I-B Grants to States for Dislocated Worker Employment and Training Activities (WIA)	1,000,000,000	1,000,000,000
Title I-D National Reserve Assistance for Dislocated Workers (WIA)	500,000,000	200,000,000
Title I-D YouthBuild Activities (WIA)	50,000,000	100,000,000
Title I-D Worker Training and Placement in High Growth and Emerging Industry Sectors (WIA)	750,000,000	250,000,000
Office of Job Corps	300,000,000	160,000,000
Community Service Employment for Older Americans	120,000,000	120,000,000
State Unemployment Insurance and Employment Service Operations	500,000,000	400,000,000
Departmental Management Salaries and Expenses	80,000,000	3,000,000
Total	5,000,000,000	3,933,000,000

Source: Table prepared by CRS, January 28, 2009, based on H.R. 1 as passed by the House of Representatives, January 28, 2009, available online at http://frwebgate.access.gpo.gov/cgi-bin/getdoc.cgi?dbname=111_cong_bills&docid=f:h1ih.txt.pdf, and on the version of S. 336 released by the Senate Committee on Appropriations, January 28, 2009, available online at http://appropriations.senate.gov/News/2009_01_28_Text_of_S336_the_American_Recovery_and_Reinvestment_Plan.pdf?CFID=4217211&CFTOKEN=58458739.

WIA Title I Programs Included in the ARRA

The Workforce Investment Act of 1998 (P.L. 105-220) provides job training and related services to unemployed and underemployed individuals. WIA programs are administered by the DOL, primarily through its Employment and Training Administration (ETA). State and local WIA training and employment activities are provided through a system of One-Stop Career Centers. Authorization of appropriations under WIA expired in FY2003 but is annually extended through appropriations acts.³

³ For additional information about programs for Title I of WIA, see CRS Report RL33687, *The Workforce Investment* (continued...)

WIA authorizes numerous job training programs, including:

- state formula grants for Youth, Adult, and Dislocated Worker Employment and Training Activities;
- Job Corps; and
- national programs, including the Native American Program, the Migrant and Seasonal Farmworker Program, the Veterans' Workforce Investment Program, Responsible Reintegration for Young Offenders, the Prisoner Reentry Program, Community-Based Job Training Grants, and YouthBuild.

In FY2008, programs and activities noted above were funded through the WIA at \$5.2 billion, including \$3.1 billion for state formula grants for adult, youth, and dislocated worker training and employment activities.

This section discusses WIA Title I programs that would receive additional funding through the ARRA. Where appropriate, appendix tables provide estimates of the amounts that states would receive.

Title I-B Grants to States for Adult Employment and Training

The adult program provides training and related services to individuals ages 18 and older through formula grants allocated to states, which in turn allocate funds to local entities. Any individual may receive "core" services (e.g., job search assistance). To receive "intensive" services (e.g., individual career planning and job training), an individual must have received core services and need intensive services to become employed or to obtain or retain employment that allows for self-sufficiency. To receive training services (e.g., occupational skills training), an individual must have received intensive services and need training services to become employed or to obtain or retain employment that allows for self-sufficiency.

Both the House and Senate versions of the ARRA would provide an additional \$500 million for Title I-B grants to states for adult employment and training activities, which would be available for obligation on the date of enactment of the ARRA. The Senate version, S. 336, would require that priority for use of these funds be given to recipients of public assistance and other low-income individuals for intensive services and training. H.R. 1, however, does not indicate prioritization for use of funds under this section of the act.

Under both versions of the ARRA, funds would be allocated through the state grant formulas. Estimated state grants were calculated using these formulas after reserving 0.25% of the total appropriation for the outlying areas (as is done when making regular Title I-B allocations).

Appendix Table A-1 details the results of these calculations.

Title I-B Grants to States for Youth Activities

The youth program provides training and related services to low-income youth ages 14-21 through formula grants allocated to states, which, in turn, allocate funds to local entities.

(...continued)

Act (WIA): Program-by-Program Overview and Funding of Title I Programs, by Blake A. Naughton.

Both the House and Senate versions of the ARRA would provide a total of \$1.2 billion for grants for youth activities, including summer employment, which would be available for obligation on the date of enactment of the ARRA.⁴ **Appendix Table A-2** provides estimated state grants under this program. Each measure includes provisions affecting the expenditure of these funds:

- H.R. 1 and S. 336 specify that no portion of this additional funding would be available for Youth Opportunity Grants.⁵
- H.R. 1 and S. 336 would change the age for an “eligible youth” in these programs from 21 to 24.
- H.R. 1 would stipulate that the only performance measure to be used in assessing the effectiveness of summer jobs for youth is attainment of basic skills and, as appropriate, work readiness or occupational skills. S. 336 would require the use of the same performance indicator but would apply it to all youth activities supported with funds from this section.

Title I-B and I-D Grants to States for Training and Employment of Dislocated Workers

A majority of WIA dislocated worker funds are allocated by formula grants to states (which in turn allocate funds to local entities) to provide training and related services to individuals who have lost their jobs and are unlikely to return to those jobs or similar jobs in the same industry. The remainder of the appropriation is reserved by DOL for a National Reserve account, which in part provides for National Emergency Grants to states or local entities (as specified under Section 173).

Both the House and Senate versions of the ARRA would provide a total of \$1.0 billion for formula grants to states for employment and training activities for dislocated workers, which would be available for obligation on the date of enactment of the ARRA. **Appendix Table A-3** provides estimated state grants under this program.

H.R. 1 would provide a total of \$500 million for the Dislocated Workers National Reserve for grants to eligible entities serving areas of high unemployment or high poverty and experiencing major economic dislocations. Additionally, H.R. 1 would direct the Secretary of Labor to ensure that applicants for these funds demonstrate the manner in which supportive services (e.g. income support, child care) necessary for participation in job training will be provided.

S. 336 would provide a total of \$450 million for the Dislocated Workers National Reserve, \$200 million of which would be for national emergency grants.⁶ Additionally, S. 336 would direct the remaining \$250 million for competitive grants to train workers for high growth and emerging

⁴ As specified in the statutory formulas for state allotments for WIA Youth Activities, a total allotment in excess of \$1 billion would trigger a change in the allocation formula; however, the ARRA specifies the formula allocation is to remain the same as if the total allocation were less than \$1 billion.

⁵ Although the ARRA specifically excludes funding for Youth Opportunity Grants, the most recent appropriation for these grants was FY2003.

⁶ Although it is not identified specifically in the legislation, the Senate Appropriations Committee Report indicates that these funds are to be used for grants authorized under WIA Section 173(a)(1), which refers to workers affected by major economic dislocations, such as plant closures or mass layoffs.

industry sectors (see details in section on “Title I-D Grants for High Growth and Emerging Industry Sectors,” below).

Title I-D Grants for YouthBuild

This competitive grant program funds projects that provide education and construction skills training for disadvantaged youth. Since its inception in 1992, the program was administered by the Department of Housing and Urban Development, but was moved to DOL by the YouthBuild Transfer Act (P.L. 109-281), effective for FY2007. Participating youth work primarily through mentorship and apprenticeship programs to rehabilitate and construct housing for homeless and low-income families.

Both versions of the ARRA would provide additional funding for YouthBuild, which would be available for obligation on the date of enactment of the ARRA. H.R. 1 would provide \$50 million for YouthBuild activities, but, unlike S. 336, does not specify any stipulations on expenditures. S. 336 would provide \$100 million for YouthBuild grants. However, S. 336 would allow, in program years 2008 and 2009, participation for individuals who have dropped out of high school and re-enrolled in an alternative school.⁷

Title I-D Grants for High Growth and Emerging Industry Sectors

Funds for this program would be distributed by a competitive grant process to provide worker training and placement in high growth and emerging industry sectors. The House version of the ARRA would provide a total of \$750 million for these grants.

Of the total proposed allotment in H.R. 1, \$500 million would be reserved for research, labor exchange, and job training projects that prepare workers for careers in the following energy efficiency and renewable energy industries:⁸

- energy-efficient building, construction, and retrofits industries;
- renewable electric power industry;
- energy-efficient and advanced drive train vehicle industry;
- biofuels industry;
- deconstruction and materials use industry;
- energy efficiency assessment industry serving the residential, commercial, or industrial sectors; and

⁷ The YouthBuild program includes an education component and occupational skills training component for youth ages 16 through 24. At least three quarters of enrolled youth must be school dropouts and either low-income, in foster care (or have “aged out” of foster care), an offender, disabled, children of incarcerated parents, or migrants. S. 336 authorizes the program to serve youth who have dropped out of school and “re-enrolled in an alternative school, if that re-enrollment is part of a sequential service strategy.” The accompanying report to S. 336 (S.Rept. 111-3) does not clarify whether these newly eligible youth could forgo participating in the educational component of the program and/or dually enroll in both YouthBuild’s educational component and a separate alternative school. The report does not define the term “sequential service strategy.”

⁸ These industries are specified in WIA Section 171(e)(1)(B)(ii), as amended by the Green Jobs Act of 2007 (Title X of P.L. 110-140).

- manufacturers that produce sustainable products using environmentally sustainable processes and materials.

In H.R. 1, the remainder of \$250 million would be allocated on the basis of priority for projects preparing workers for careers in the health care industry.

The Senate version, S. 336, would require the Secretary of Labor, in awarding the \$250 million from the Dislocated Workers National Reserve, to give priority to projects that prepare workers for careers in the energy efficiency and renewable energy industries listed above and for careers in the health care sector.

Job Corps

Job Corps is a residential job training program first established in 1964 that provides services to low-income individuals ages 16-24 primarily through contracts administered by DOL with corporations and nonprofit organizations. Currently, there are 122 Job Corps centers in 48 states, the District of Columbia, and Puerto Rico. On February 8, 2007, DOL announced that three new centers will open, including the first centers in each of the remaining two states, New Hampshire and Wyoming.

The House version of the ARRA would provide a total of \$300 million to the Job Corps program, and the Senate version of the ARRA would provide \$160 million for the Job Corps program. Both allocations would be available for obligation on the date of enactment of the ARRA and would remain available for obligation through June 30, 2010. While both the House and Senate provisions would allow the Secretary of Labor to transfer up to 15% of the allocated funds for operational needs of Job Corps Centers, H.R. 1 has additional stipulations:

- Funds provided in H.R. 1 would be available for construction, rehabilitation, and acquisition of Job Corps Centers; in S. 336, funds may be used only for the construction, rehabilitation, or repair of facilities.
- H.R. 1 would allow a partial exception to the requirement to close an account after five years, in order to give priority to projects that can begin construction within 120 days of enactment of the act.
- H.R. 1 would also give priority to activities that can start promptly and will have the greatest impact on the energy efficiency of Job Corps facilities.
- H.R. 1 would require the Secretary of Labor to report to the Committee on Appropriations in the House and Senate on actual obligations, expenditures, and unobligated balances for each activity funded by this section. The initial report would be due by September 30, 2009 and quarterly thereafter.

Additional Workforce Development Funding in the ARRA

In addition to adding funds to the job training programs in Title I of WIA, both versions of the ARRA would provide additional funding for three related programs:

- H.R. 1 would allocate \$500 million for state unemployment insurance and employment services operations, 50% of which would be allocated for reemployment services for unemployment insurance claimants. In addition, H.R.

- 1 would alter the allocation formula for funds under this provision. S. 336 would allocate \$400 million for these services and would require that \$250 million be allocated for reemployment services for unemployment insurance claimants.⁹
- Both H.R. 1 and S. 336 would allocate \$120 million for the Community Service Employment for Older Americans program, which would be allotted in proportion to grantees' PY2008 allocation within 30 days for the enactment of this legislation.
 - H.R. 1 would provide \$80 million for DOL Departmental Management for the enforcement of worker protection laws, oversight, and coordination activities related to the infrastructure and unemployment insurance investments in the ARRA. S. 336 would provide \$3 million for the DOL Office of the Inspector General to provide oversight and audit of programs, grants, and projects funded under this act.

⁹ Local employment service (ES) offices are known by different names, such as Employment Service, Job Service, One-Stop Career Center, and Workforce Development Center. These offices offer an array of services to job seekers and employers, including career counseling, job search workshops, labor market information, job listings, applicant screening, and referrals to job openings. States provide ES services through three tiers of service delivery: self-service, facilitated self-help, and staff-assisted. As the names of the tiers imply, progressively more active staff involvement is required as services range from internet job postings to career counseling. Funds for the ES are allocated to states by a formula using civilian labor force and unemployment data. This report will not provide a state-by-state estimate of the distribution of ES funds due to current limits on CRS modeling capacity for this program.

Appendix. Estimated State Grants for Selected Programs

**Table A-1. Estimated Additional State Grants for Adult Activities (WIA Title I-B)
Grants to States at an Appropriation Level of \$500 Million**

State	Estimated Additional State Grants	
	FY2009 (\$) H.R. 1	FY2009 (\$) S. 336

Vermont	2,948,000	2,948,000
Virginia	13,114,000	13,114,000
Washington	23,682,000	23,682,000
West Virginia	5,397,000	5,397,000
Wisconsin	13,948,000	13,948,000
Wyoming	2,948,000	2,948,000
Subtotal for states, DC, and Puerto Rico	1,1790,000,000	1,1790,000,000
Outlying areas and BIA	21,000,000	21,000,000
Total	1,200,000,000	1,200,000,000

Source: CRS estimates based on analysis of FY2009 DOL data. Table prepared by CRS, January 28, 2009.

Notes: Funds were allocated through the WIA Youth Activities Grant formulas. Details may not add to totals due to rounding. As noted in footnote 4, the statutory formulas for state allotments for WIA Youth Activities stipulate that a total allotment in excess of \$1 billion normally triggers a change in the allocation formula; however, the ARRA specifies the formula allocation is to remain the same as if the total allocation were less than \$1 billion.

Notice: These are estimated grants only. These estimates are provided solely to assist in comparisons of the relative impact of alternative formulas and funding levels in the legislative process. They are not intended to predict specific amounts that states will receive.

Table A-3. Estimated Additional State Grants for Dislocated Worker Activities (WIA Title I-B) Grants to States at an Appropriation Level of \$1.0 Billion

State	Estimated Additional State Grants	
	FY2009 (\$) H.R. 1	FY2009 (\$) Senate
Alabama	10,635,000	10,635,000
Alaska	2,859,000	2,859,000
Arizona	14,028,000	14,028,000
Arkansas	6,060,000	6,060,000
California	178,870,000	178,870,000
Colorado	11,660,000	11,660,000
Connecticut	11,997,000	11,997,000
Delaware	1,644,000	1,644,000
District of Columbia	3,057,000	3,057,000
Florida	64,930,000	64,930,000
Georgia	35,307,000	35,307,000
Hawaii	1,742,000	1,742,000
Idaho	2,283,000	2,283,000
Illinois	55,242,000	55,242,000
Indiana	21,130,000	21,130,000
Iowa	4,212,000	4,212,000
Kansas	4,195,000	4,195,000
Kentucky	15,084,000	15,084,000
Louisiana	7,463,000	7,463,000
Maine	3,685,000	3,685,000
Maryland	9,072,000	9,072,000
Massachusetts	17,107,000	17,107,000
Michigan	63,237,000	63,237,000
Minnesota	16,898,000	16,898,000
Mississippi	11,454,000	11,454,000
Missouri	20,821,000	20,821,000
Montana	1,415,000	1,415,000
Nebraska	2,089,000	2,089,000
Nevada	11,536,000	11,536,000
New Hampshire	2,017,000	2,017,000
New Jersey	26,363,000	26,363,000
New Mexico	2,387,000	2,387,000
New York	53,497,000	53,497,000

State	Estimated Additional State Grants	
	FY2009 (\$) H.R. 1	FY2009 (\$) Senate
North Carolina	35,805,000	35,805,000
North Dakota	739,000	739,000
Ohio	47,164,000	47,164,000
Oklahoma	4,855,000	4,855,000
Oregon	13,834,000	13,834,000
Pennsylvania	34,243,000	34,243,000
Puerto Rico	23,798,000	23,798,000
Rhode Island	6,405,000	6,405,000
South Carolina	19,914,000	19,914,000
South Dakota	769,000	769,000
Tennessee	22,870,000	22,870,000
Texas	43,341,000	43,341,000
Utah	2,851,000	2,851,000
Vermont	1,410,000	1,410,000
Virginia	11,378,000	11,378,000
Washington	17,848,000	17,848,000
West Virginia	2,885,000	2,885,000
Wisconsin	12,945,000	12,945,000
Wyoming	471,000	471,000
Subtotal for states, DC, and Puerto Rico	997,500,000	997,500,000
Outlying areas	2,500,000	2,500,000
Total	1,000,000,000	1,000,000,000

Source: CRS estimates based on analysis of FY2009 DOL data. Table prepared by CRS, January 28, 2009.

Notes: The allocation formula for dislocated worker funding typically includes a set-aside for the National Reserve account. However, the ARRA includes a separate provision for this National Reserve; thus the full \$1 billion is allocated for state grants in Table A-3. Details may not add to totals due to rounding. The allocation formula for Dislocated Worker grants uses a three-factor formula based on a state's relative share of total unemployed, excess unemployed, and long-term unemployed.

Notice: These are estimated grants only. These estimates are provided solely to assist in comparisons of the relative impact of alternative formulas and funding levels in the legislative process. They are not intended to predict specific amounts states will receive.
