## MAPPING PUBLIC FINANCING IN AMERICAN ELECTIONS

The following maps, prepared by the Center for Governmental Studies (CGS), provide a comprehensive overview of state and local public financing programs in the United States. The maps show existing state and local programs by category (full public financing jurisdictions, partial public financing jurisdictions, and jurisdictions that give public financing to political parties), as well as states that have introduced public financing legislation in the last 12 months.

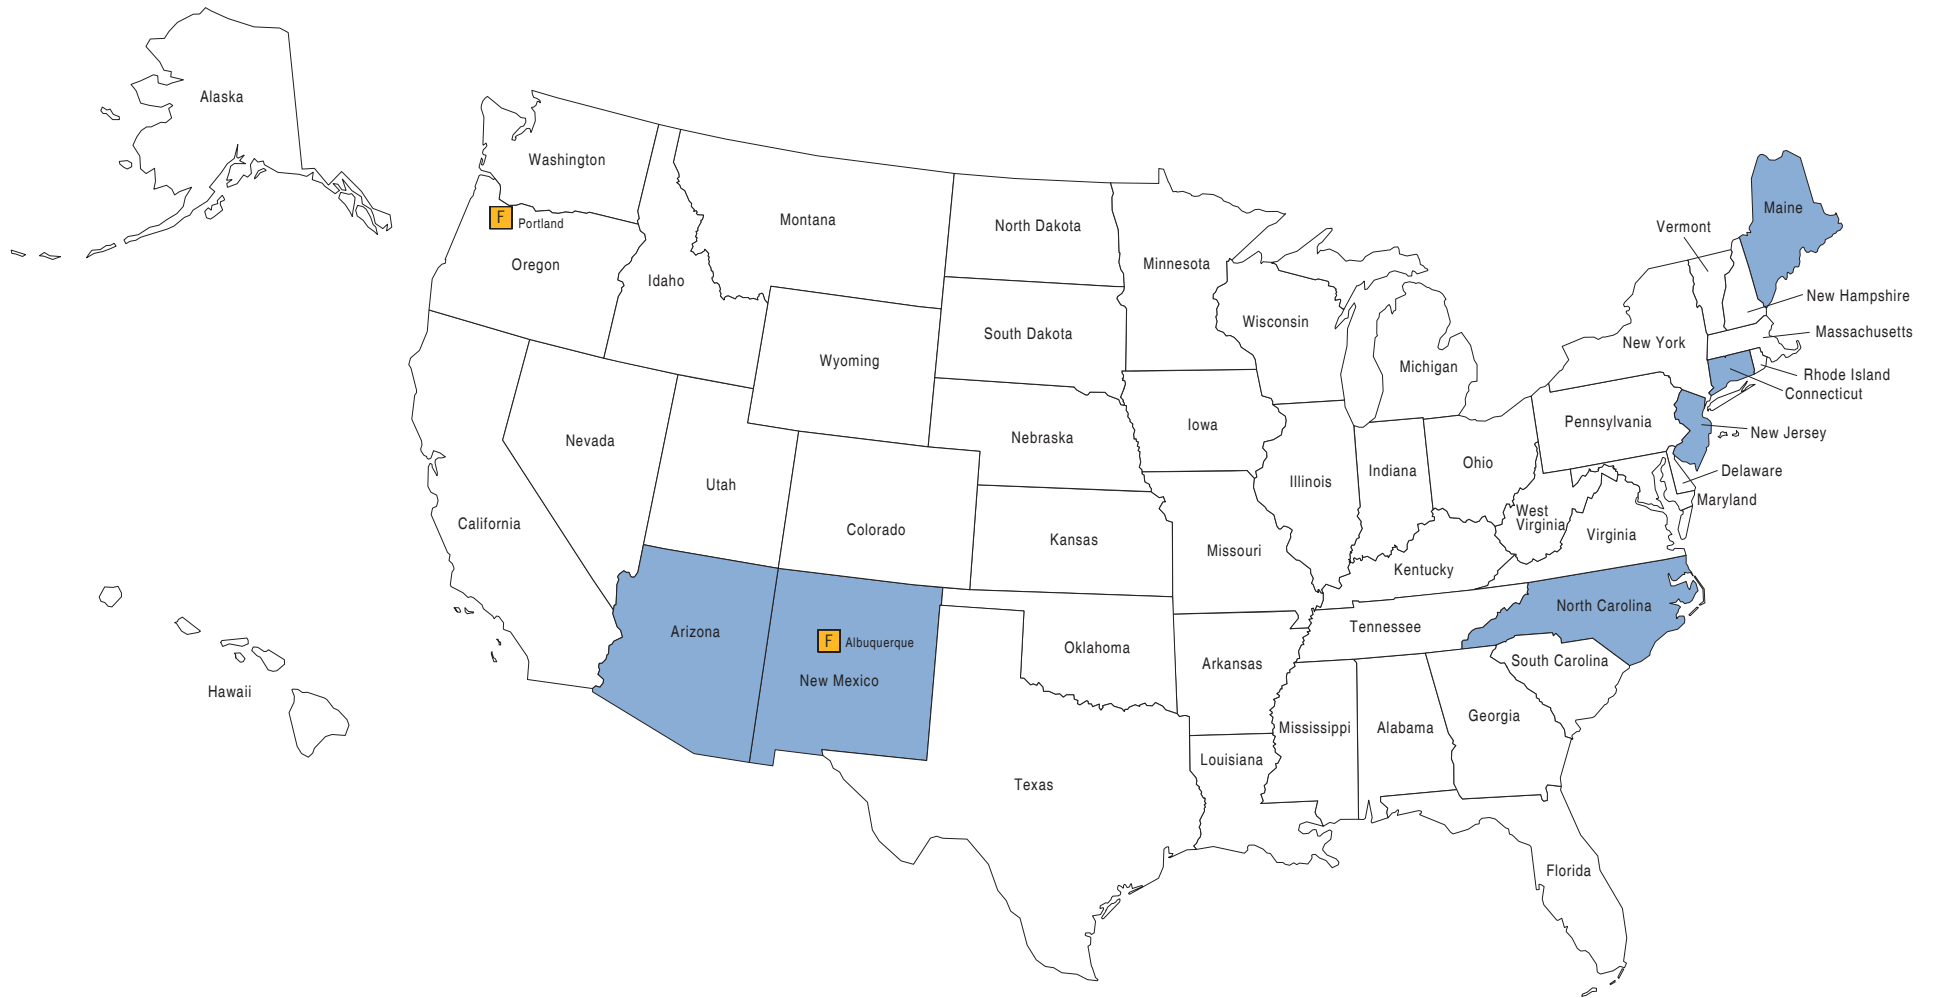

The maps show that:

- Six states and two local jurisdictions provide full public financing to qualified candidates running for some offices;
- Eleven states and ten local jurisdictions provide partial public financing (or matching funds) to qualified candidates running for some offices;
- Ten states provide public financing to political parties in the state; and
- Sixteen states have introduced public financing legislation in the last 12 months.

The *Public Financing in American Elections* project is made possible by generous grants from the Carnegie Corporation of New York, JEHT Foundation and Rockefeller Brothers Fund.

For more information about these maps or public financing programs, please contact Steve Levin, Political Reform Project Director, [slevin@cgs.org](mailto:slevin@cgs.org) or (310) 470-6590, ext. 115.

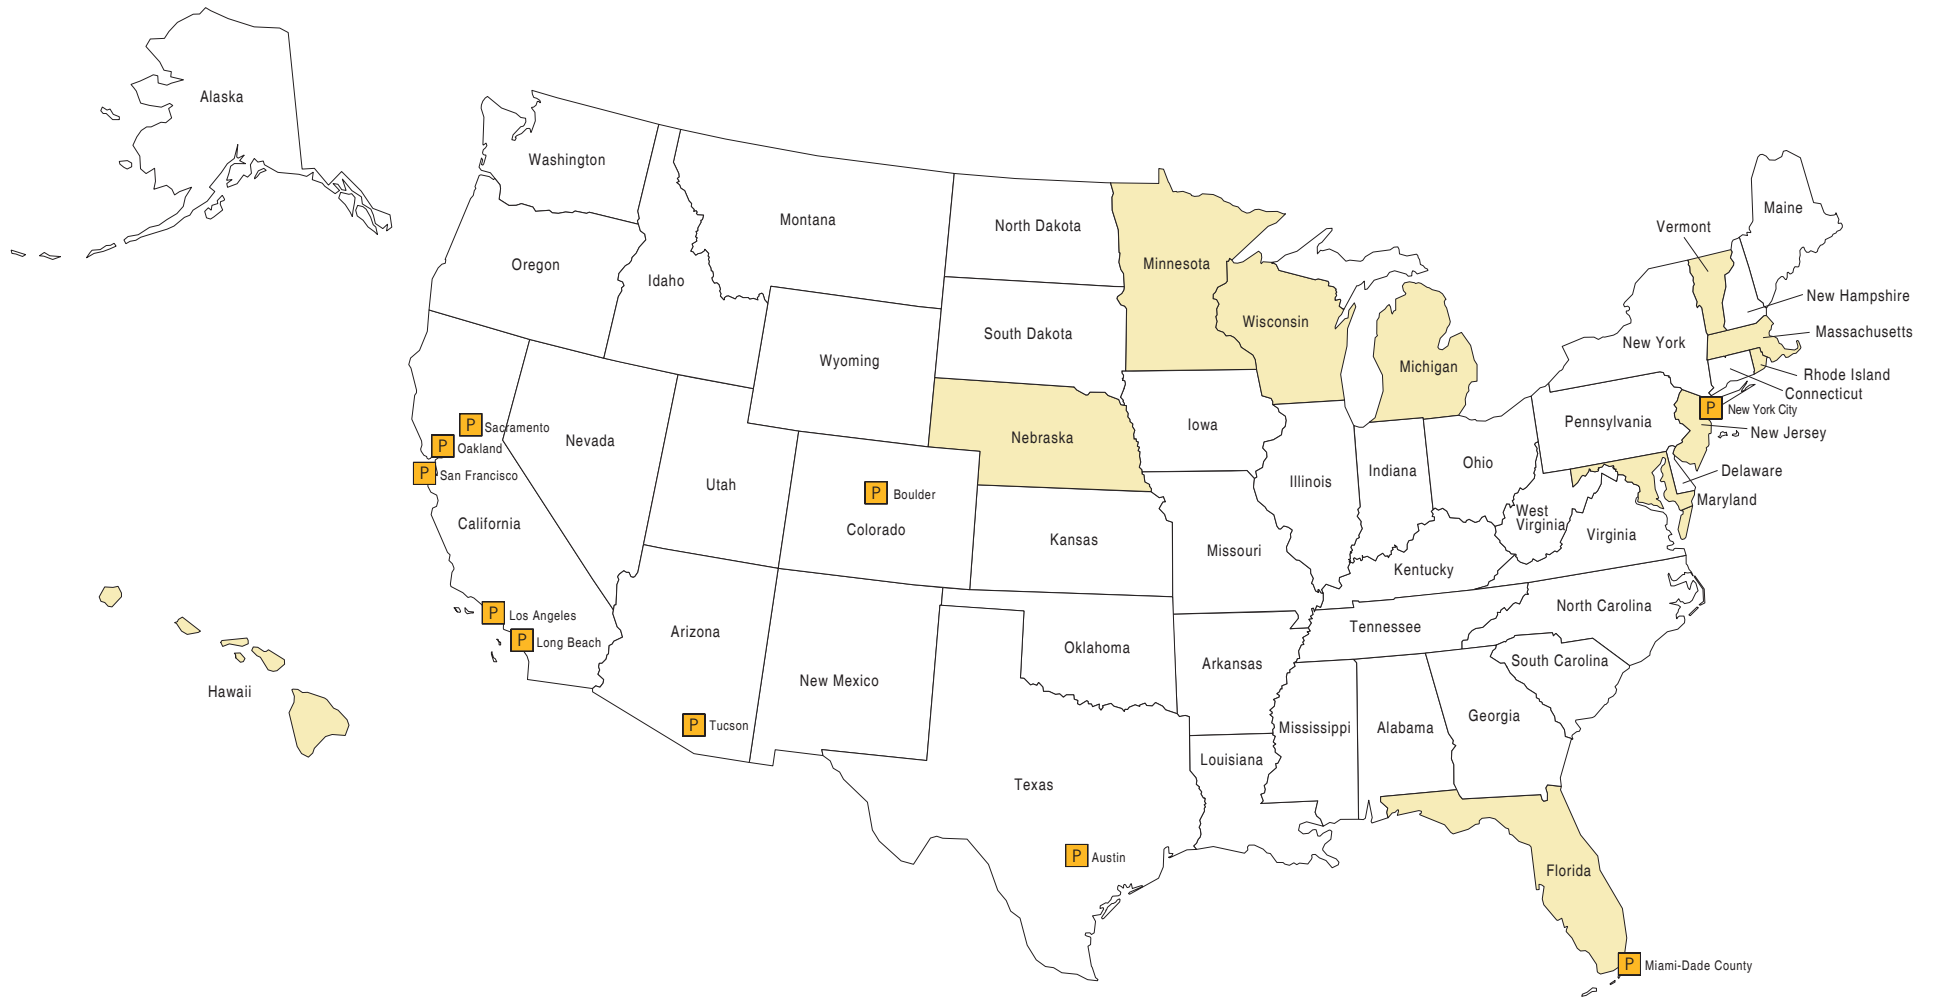

**Full Public Financing Laws (“Clean Money” or “Clean Elections”)**

This map shows cities and states that provide full public financing (“clean money” or “clean elections”) to qualified candidates running for some offices.

STATE: ■ Full public financing

CITY: F Full public financing

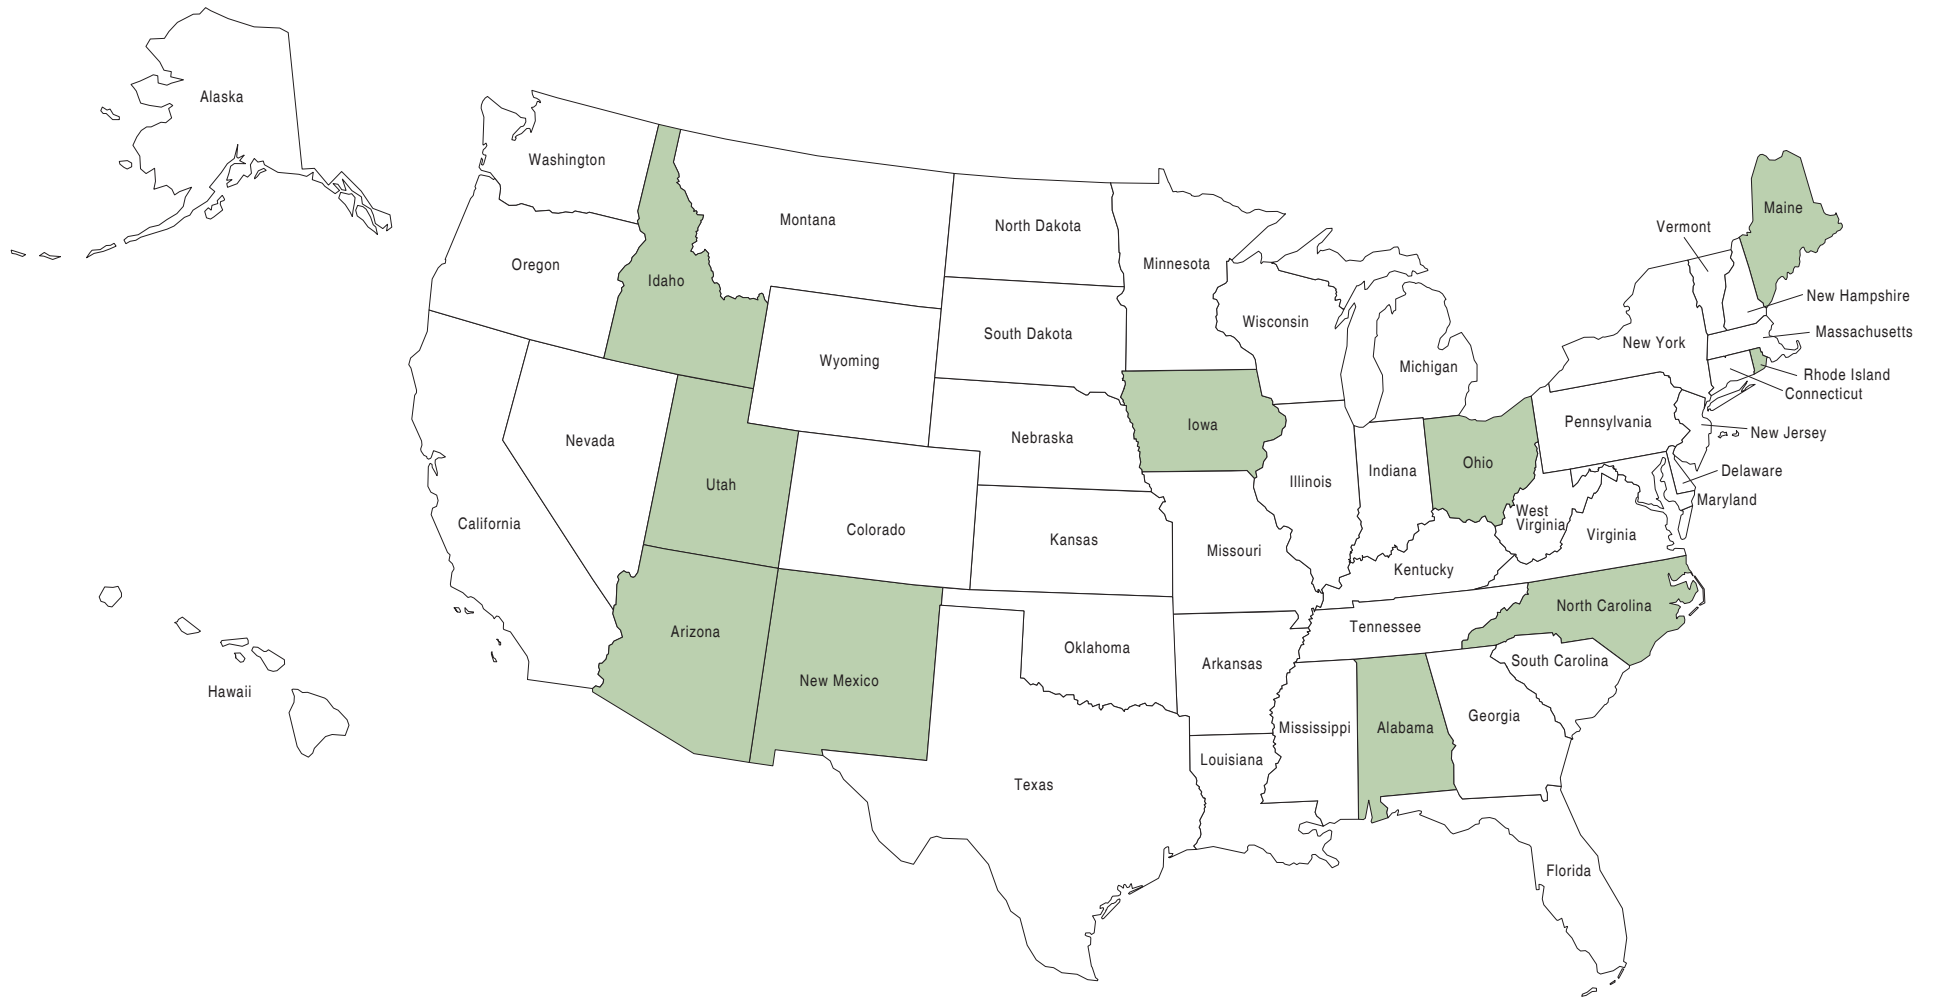

**Partial Public Financing Laws (“Matching Funds”)**

This map shows cities and states that provide partial public financing (or “matching funds”) to qualified candidates running for some offices.

STATE:  Partial public financing

CITY:  Partial public financing

**Public Financing to Political Parties**

This map shows states that provide public financing to political parties in the state.

STATE:  Public financing to political parties
